ALEJANDRO ALVAREZ URIBE
Materials Engineer| FullStack Developer | Data Analyst

Experienced Materials Engineer with a strong background in fullstack development and data analysis. Skilled at optimizing processes, analyzing data for insights, and developing innovative solutions to complex engineering challenges.

Experience

FullStack Developer

Capital Pocket Medellín, Colombia
Mar 2023 - Present

- Developed and maintained web applications using HTML, CSS, JavaScript, and React.
- Experienced in server-side scripting using Node.js, Python, and Express.js.
- Proficient in utilizing databases such as MySQL for data management.
- Collaborated with cross-functional teams to deliver high-quality software solutions on schedule.

Frontend Developer

No Country Buenos Aires, Argentina
Jul 2022 - Mar 2023

- Developed responsive websites using HTML, CSS, and JavaScript for optimal user experience.
- Implemented UI/UX design principles to enhance user interactions and accessibility.
- Collaborated with design and backend teams to ensure seamless integration and functionality.
- Conducted cross-browser testing and debugging for consistent performance on all devices.

Materials Engineer

Invesa S.A Medellín, Antioquia
Nov 2021 - Nov 2022

- Conducted material testing, analysis, and characterization to enhance product performance.
- Collaborated with cross-functional teams to develop innovative materials for specific project requirements.
- Managed supplier relationships to ensure quality materials were procured and met standards.

Education

Materials Engineer

Universidad de Antioquia Medellín, Colombia
Jul 2016 - Dec 2022

Development of a methodology currently implemented in the industry, which consists of evaluating composite materials of polyester reinforced with fiberglass.

FullStack Developer

Platzi Medellín, Colombia
Oct 2021 - Jan 2023

Development of multiple applications where frontend and backend concepts and libraries are used to create optimized applications both server-side and client-side.

Data Engineer

Platzi Medellín, Colombia
Jan 2024 - Present

Learning and mastering tools for exploratory data analysis, data extraction, transformation, and loading (ETL) processes for process optimization.
